Higher Sale Price

7 Buyers Can Visualize
In a 2021 National Association of Realtors (NAR) Survey, over 83% of buyers find it “easier to visualize the property as their future home” when it’s professionally staged

8 Professional Objectivity
If you can’t see objectively, you can’t “package” effectively and it’s almost impossible for a seller to be objective about their home... they need professional help.

9 Stress Reduction
Staging minimizes the need for sellers to keep their homes in show-ready condition for extended periods, making the selling process less stressful.

According to a Zillow survey of thousands of real estate experts, “home staging” was listed as the TOP TWO necessary items to sell.

11 **ROI for Agents**

Staged homes can lead to repeat business and referrals for real estate agents, as satisfied clients are more likely to recommend your services to others.

12 **Better Than a Price Reduction**

Staging is always much less expensive than your first price reduction. Don't make the seller question why you didn't stage in the first place.
